

## Slow Pedagogies in Early Childhood Education

**March 18, 2023 Sat. 16 : 30-18 : 30 JST** (open at 16 : 15 JST)

7 : 30-9 : 30 GMT (open at 7 : 15 GMT)

Online

Simultaneous interpretation available, Free of charge,

Advance registration required (first 1,000 applicants)

In the fast-changing society, childhood seems to be “accelerating” as well. Prof. Alison Clark has been questioning the “time” of early childhood and advocating the value of “slow pedagogy” and “slow knowledge” to challenge the trend of acceleration. In this symposium, she will talk about slow pedagogy based on her recent book, “Slow knowledge and the unhurried child: time for slow pedagogies in early childhood education”. We will consider what practices enable “unhurried children” and “unhurried adults”.

Moderator Sachiko Nozawa (CEDEP)

### Lecture

#### **Alison Clark**

(PhD. Professor of Early Childhood Education at University of South-Eastern Norway,  
Honorary Senior Research Fellow, UCL Institute of Education, London, UK.)

### Mini-lecture

#### **Mari Mori**

(Professor, Kobe Shinwa Women’s University)

### Discussion

#### **Kiyomi Akita**

(Professor, Gakushuin University / Emeritus professor, The University of Tokyo)

### Closing Remarks

#### **Sachiko Asai**

(Professor, The University of Tokyo / Deputy Center Director of CEDEP)

Alison Clark

PhD. Professor of Early Childhood Education at University of South-Eastern Norway  
Honorary Senior Research Fellow, UCL Institute of Education, London, UK.  
With Prof. Peter Moss, she developed the Mosaic Approach, a visual and participatory  
research framework for listening to the views and experiences of young children. Research  
topics include children’s rights, slow-pedagogy, and the early childhood environment etc.

To register: Please register through the website of CEDEP.
